## STD PSA Contest

***Submission deadline extended to March 15, 2017***

Can you take a difficult subject and make it less difficult? Did you know that two out of every three reported STD cases in Florida were under the age of 25? Would you like to help reverse this trend? STD infection is now a national health issue. Florida is trying to do its part but we need your help.

We're looking for people aged 14-20 to create 15-second and/or 30-second public service announcements. Many of you already make them for your schools but here's your chance to show off statewide.
